

Board could request the NRC to reduce the number of directors in a particular district. This request would be accompanied by proposed new subdistrict boundaries and a plan to accomplish the proposed reduction of the directors. The NRC can approve or deny the request, but the commission could not specify the number of directors requested or to be implemented in the proposal. No director's term of office could be shortened as a result of the reduction in the number of board members, and I think that there might be a period of time when the number of board members would be an even number through this reorganization but eventually it would revert back to an odd-numbered board of directors. I urge you to advance the bill.

SPEAKER NICHOL: Any further discussion? I don't see any lights. The question is the advancement of the bill. All those in favor vote aye, opposed nay. We are voting on the advancement of the bill. Record, Mr. Clerk, please.
